

Now, There's A Smarter, Easier Way
to Install Pittsburgh Corning Glass Block With the NEW

PROVantage™

GLASS BLOCK INSTALLATION SYSTEM

Above photo series: ProVantage® Glass Block Installation System using HEDRON® Block.

Benefits

The new ProVantage™ Glass Block Installation System uses spacers to align and hold the block in place and silicone to bond the spacer to the blocks. The consistent, even-spaced joints are then finished with a special tile grout resulting in a clean, smooth, professional installation. For smaller, straight wall panels with 4-sided support, silicone can be used in the joints to provide an all-glass look.

- Spacers align and hold block in place for fast and easy installation
- Beautiful, professional results every time
- Turn corners with ease
- For use with Pittsburgh Corning Premiere Series glass blocks and shapes in the DECORA® and IceScapes® patterns

The new ProVantage™ Glass Block Installation System includes:

- Pittsburgh Corning Premiere Series Glass Blocks
- Horizontal Spacers
- Vertical Spacers
- HEDRON® Horizontal Spacers
- ARQUE® Horizontal Spacers
- TRIDRON® Horizontal Spacers
- Pittsburgh Corning Glass Block Sealant
- ProVantage™ Glass Block Surface Grout
- Wall Anchor Pack

A combination of the above items will be needed depending upon your design.

ProVantage® Glass Block Installation System using ARQUE® Block.

ProVantage® Glass Block Installation System using TRIDRON® Block.

The ProVantage™ Glass Block Installation System is available through authorized Pittsburgh Corning Glass Block Distributors. Now, There's A Smarter, Easier Way to Design
Pittsburgh Corning Glass Block Applications
With the NEW Pittsburgh Corning Glass Block

EZ DESIGN

Powered By **SketchUp** Library

Designing glass block is now easier than ever with the new Pittsburgh Corning Glass Block EZ Design Library powered by SketchUp® Software.

Using SketchUp® by @Last Software, a powerful, yet easy-to-learn design tool, the new EZ Design Library allows architects, builders and distributors to quickly and easily turn initial glass block project ideas into 3D models.

EZ Design Library powered by SketchUp® fits with existing technology infrastructure, with fast DWG/DXF import/export and has cross platform functionality for both Windows and Mac.

With EZ Design you can:

Design projects using either mortar or the new ProVantage™ Glass Block Installation System using EZ Design's customized Pittsburgh Corning Glass Block library.

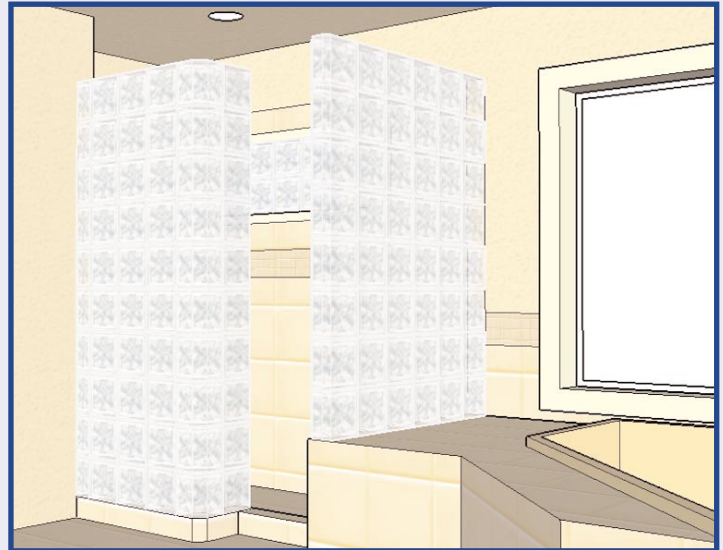

1. See what the application will look like (see illustration)
2. Print out the bill of materials
3. Then install the glass block with the new ProVantage™ Glass Block Installation System

Sample Bill of Materials

Quantity	Item
10 blocks	8" HEDRON® Corner Block, DECORA® Pattern
10 blocks	4" x 8" x 4" Glass Block, DECORA® Pattern
80 blocks	8" x 8" x 4" Glass Block, DECORA® Pattern
18 blocks	8" x 8" x 4" EndBlock™ Finishing Units, DECORA® Pattern
10 packs	8" ProVantage™ Vertical Spacer Pack (includes 10 – 8" Vertical Spacers)
20 pieces	40" ProVantage™ Horizontal Spacer (cut to length as needed)
2 packs	HEDRON® Horizontal Spacer Pack (includes 5 HEDRON® Horizontal spacers and 10 flat vertical spacers per pack)
16 tubes	Pittsburgh Corning Glass Block Silicone (10 oz. tube)
2 buckets	ProVantage™ Glass Block Surface Grout – 15 lbs. bucket
2 packs	Anchor Packs (includes anchors, fasteners and shims)
